

Cuiabá, 23 March 2021 – AMAGGI would like to inform all stakeholders, and the market in general, that on Monday night (22), the Economic Defense Administrative Council (CADE) approved, without restrictions, AMAGGI's acquisition of the 'O Telhar' Agro group operations in Brazil. The public opinion on this process is now available on the CADE's official website.

The referred transaction had been disclosed by the parties involved when the respective share purchase and sale agreement was signed, on March 5, as well as the merger protocol with CADE. After the approval by the competition body, the conclusion of the transaction still depends on certain precedent conditions to be met by the parties involved.
